

VIÐSKIPTARÁÐ ÍSLANDS
ICELAND CHAMBER
OF COMMERCE

Reykjavik 2014

Letter of confirmation:

The Iceland Chamber of Commerce hereby confirms that in August 2014 the Chamber will launch a new online system for certificates of origin. Applications for certificates of origin will now be submitted through the online system available on our website www.vi.is and the documents will be certified with electronic stamps. One stamp will be used to certify the certificates of origin and a another one to certify invoices and other extra material. We hereby confirm that the electronic stamps showcased below are certified stamps from the Iceland Chamber of Commerce.

With this new online system every certificate of origin will have a serial number. In addition, all extra material concerning a certain certificate will be marked with the same serial number. This is done to fulfill the International Certificate of Origin Guidelines issued by the International Chamber of Commerce World Chambers Federation.

Sincerely,

Mr. Frosti Ólafsson
Managing Director
